REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claim 1 defines over Clack (US 5002664) in that Clack '664 fails to teach a pump mounted in a module which is substantially identical to a module containing a purifying unit. Further, the canisters of Clack '664 fail to have an adapter. In regard to claim 5, Clack '664 fails to include the pump feature as in claim 1 and the interconnected control unit. The closest art for claim 16 is Barbachano (US 4951851) where a membrane permeate of a first membrane is employed to flush a fouled secondary, parallel mounted membrane. However, Barbachano '851 fails to teach or suggest the storage tank and the "control means for halting operation of said pump motor, ...therein".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
